

What makes a good nomination?

We asked members of our judging panel what they look for when selecting finalists...

Stick to the word count
- we only have a **limited amount of time** to review each nomination

In the full overview make sure you give information on **how the project was service user driven** and **how the project impacted those who took part or attended**

Remember, this will be the first time we are hearing about your project so **it's important to include a good description**

We love to see **photos, videos and additional documents** that might help us see the **process or result of the project**

Don't include any service user / resident names on the form

Include quotes and comments from those involved to help us understand the impact of the project

Submit your nomination at www.livedexperienceawards.org/nominations/submit/ by Friday 12th July
